DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination (RCE) under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 2, 2008, has been entered.

Response to Amendment

2. Applicant's amendment submitted with the RCE has been entered. Claim 11 has been amended as requested. Claims 1-10, 13, 15, and 17 have been cancelled. Thus, the pending claims are 11, 12, 14, 16, 18, and 20-33.

3. Said amendment is sufficient to withdraw the claim objection set forth in section 3 of the last Office Action (Final Rejection mailed January 24, 2008). Additionally, said amendment is sufficient to overcome the 112, 2nd rejection set forth in sections 5 and 6 of the last Office Action.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 1794

5. Claims 11, 12, 14, 16, 18, and 20-33 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Specifically, the limitation that “the spunbonded nonwoven exhibits no more than 5% shrinkage during the bonding and stretching” is not supported by the specificalton as originally filed. Note the specification teaches the 5% shrinkage of the spunbonded nonwoven is in subsequent manufacturing of a making a carpet with the claimed spunbonded nonwoven. See specification, page 4, line 16. Hence, the claims are rejected as containing new matter.
